Fact: Since the Sept. 11th tragedy, almost one million employees have been laid off. Could you be next?

Fact: The majority of people (58 percent), even those who seem successful, feel trapped in their current circumstances and yearn to be doing something different. How do you feel about your present work/life situation?

Fact: People want three basic things – more time, more money, and more freedom. What do you want?

According to author Patrick Snow, you release fear, become free, and get what you want when you create and then follow your destiny. His new book, *Creating Your Own Destiny: How to Get Exactly What You Want Out of Life*, reveals how anyone can discover their destiny and apply life's success secrets to making that destiny a reality. Snow gives readers the training, knowledge, and confidence to win in the game of life.

So, what exactly is destiny? If you look in *Webster's Dictionary*, you see that "destiny" means "fate." Look up "fate" and you'll see a definition of "the supposed force that predetermines events." Snow says that this "supposed force" is our mind (or brain). And if we use our mind properly by taking action and executing our ideas and the opportunities presented to us in the way that we are capable of, then we truly can become the supposed force that predetermines the events that occur in our lives. Thus, Snow says that destiny means "the ultimate purpose (fate) each of us has here on Earth." Our destiny resides within us. The great potential we have, the "supposed force," is waiting only for our minds to unleash it.

What's the life you envision in your mind? Does it involve having more time, more money, or more freedom? Isn't it time you embarked on your destiny? *Creating Your Own Destiny* shows you why business ownership (particularly home-business ownership) is the way to go in this country if you want to attain wealth and freedom. But how does the average person get started in a home-based business? Sure, signing a distributor application is easy, but what do you do to turn your signed application into your destiny?

Snow details a 10-step process that takes you from dream to reality. He skillfully guides readers and teaches you how to:

- Visualize your desired future;
- Set and prioritize your goals;
- Create your game plan;
- Build wealth through your own home-based business;
- Understand who you work for;
- Conquer addictions and overcome adversity;
- Put your fears aside;
- Remember those who molded you;
- Execute your plan daily;
- Develop your higher calling.

Create Your Own Destiny is a powerful educational and recruiting tool for network marketers. As a recruiting tool, *Create Your Own Destiny* shows prospects why their day job is not their ticket to financial freedom. The book helps people realize that there is a better way to make a living and proves why a home-based business that offers residual income is the best option. Snow then takes that concept a step further by divulging various success secrets that will help any networker's business soar.

Once you go through Snow's process and discover your destiny, the author challenges you to plow forward and develop the courage to pursue it. Execution, he says, is the most important step, because too many people spend their whole life preparing to live, but they never take action. So if you do indeed want more time, more money, more freedom, more health, more love, and more happiness, you must incorporate Snow's ideas, techniques, and strategies into your own life today.

The book's accompanying workbook, titled the *Destiny Journal Workbook*, puts you on a 30-day plan for discovering your destiny. By answering the daily questions and acting upon your responses, you go on a journey of self-discovery to uncover what you truly want. You then devise the best strategy for obtaining your goals.

The workbook's questions are "life defining." That is, your answers are your roadmap and your key to fully understanding what you want in life. The author recommends that you complete the workbook after you have read the book at least once. By doing the complete process, you become unstoppable as you realize the tremendous potential inside yourself.

Creating Your Own Destiny and the *Destiny Journal Workbook* are both useful texts for any networker's business. The author presents his destiny process in a logical manner, offering thought-provoking questions and revealing exercises for readers to complete. By using real examples from his own life, Snow shows how usable his process is and how it's viable for anyone to live their destiny. Those new to networking will appreciate the book's insight into home-business ownership, while those who are currently pursuing a network marketing business will see the book as a valuable recruiting tool.

Patrick Snow has studied the field of personal growth and development for 20 years. As an author, speaker, coach, and entrepreneur, he is an expert on how to discover and create your ultimate destiny in life. Today he is known as a business ownership advocate and has been called "The Dean of Destiny" by high achievers nationwide.
